AMENDMENT

Commissioner of Patents  
Washington, D.C. 20231

Sir:

Supplemental to the Amendment filed September 05, 2002, and in response to the Office Action mailed on October 29, 2002, please amend the above-identified application as follows:

In the Specification

Please amend the specification by substituting the following paragraphs indicated below. The changes are shown explicitly in the attached "Version with Markings to Show Changes Made."

On page 10, please substitute the fourth paragraph for the following:

E1

Since the horizontal part of the plates 63 in this embodiment is disposed along an outer periphery of the outer rotor 55 further from the stator 57 than the magnet 53, it is possible to dispose the magnetic sensor 27 at a position distant from the coils 56 of the stator 57, so the effect of the current flowing through the coils on the magnetic sensor 27 is kept small.
